## Knowledge, Attitudes and Perceptions towards Concussion in Non-Medically Trained GAA Personnel (“KapCing-P Study”)

The School of Health and Human Performance in Dublin City University (DCU) are currently performing a nationwide research project to investigate the knowledge, attitudes and perceptions towards concussion in Gaelic Games. They are currently recruiting players, coaches and referees greater than 18 years of age to partake in this research. Participants can be involved in Gaelic Football, Hurling or Camogie. They are currently contacting GAA club secretaries nationally and requesting that they communicate this project to all of their club's members. The research involves completing a short online questionnaire that will take approximately 8-10 minutes. The link for this questionnaire is:

Below is a Plain Language Statement, that outlines the purpose of the research project, the benefits/risks to participants and the confidentiality agreement. Please take some time to read this before deciding if you would like to complete the questionnaire.
